One of the files seems to be corrupt, so maybe that's why it wasn't going through. Try this one.

Barbara and Lea,

Here are some documents I received from Mary Whittle. Her message was:

“Some documents that may be of interest, including a draft SIP revision and CAO with Entergy. Retirement deadlines appear to be placeholders, and Entergy has not yet provided a 5 factor analysis to ADEQ.”

Please take a look and let me know your thoughts.
